Good Stuff for good people

**GOOD
STUFF
FOR
GOOD
PEOPLE**

**“Infinity Foods began in 1971
with a small shop in Brighton”**

Revolution rarely happens overnight.

Back in 1971, when hair was longer and trousers were considerably wider, a group of friends got together in Brighton with one simple aim: to make good, healthy food available to more people. Food that was organic before most folks knew what that meant. Food you could trust, from people you could talk to.

They opened a shop and called it Infinity Foods. And the rest? Well, we're still writing that part.

**Today, Infinity is one of the UK's biggest providers
of organic and natural wholefoods.**

Delivering to health stores, cafes, makers or anyone else who wants to try buying in a more sustainable way. From beans, grains and pulses to bodycare and cleaning products. We've got you covered. All of it cruelty free. All of it responsibly sourced.

**“Infinity has been a workers
Co-operative since 1979”**

**GOOD
STUFF
FOR
GOOD
PEOPLE**

And while we've grown, we've never outgrown our values

We became a workers' cooperative in 1979. Owned and democratically run by the people who work here. That means no shareholders pulling the strings. Just a team that genuinely cares about food, service and doing the right things.

Each year, we work with local charities and community groups, donating tonnes of surplus stock to food banks..

At our huge wholesale warehouse in Shoreham by Sea, we harness solar energy and reuse or recycle everything we can. Even used packaging from local customers.

We've been playing the long game for over 50 years so you can trust we're doing things right.

Our success is a sign that the world is changing

But maybe some things should never change.
And we're working hard to keep some of the old traditions going.

Selling good stuff for good people.

The best quality pulses, grains, nuts and seeds. Fair prices, a friendly face and decent chat. We don't think these things should ever go out of style.

Good stuff for good people....

The people behind the baskets at Trinity Wholefoods.

“Built on the same Co-operative principles as Infinity.”

Trinity Wholefoods

opened its doors for the first time almost 40 years ago.

Tucked away in a quiet corner of the “Trinity Triangle” in Hastings, it’s a small premises that packs a whole lot of good stuff in..

As well as the usual veggie and vegan staples,

Trinity manage to squeeze in fresh organic fruit and veg, baked goods and home cooked takeaway meals.

Being a workers’ coop clearly means a great deal the staff and the togetherness within the team shines through our visit on a wet Wednesday in October. There is also a real focus on community. There’s a clear desire to engage with their customers and the wider community in Hastings.

“There is a feeling of being part of something bigger at Trinity”

New premises

This feeds into their hopes of finding a larger premises nearby, which would allow them to expand their range of products and potentially have space to host events, talks and workshops.

As with all the workers' coops

we encounter, there is a feeling of being part of something bigger at Trinity.

A family feel, a commitment to the ethics of the business and a desire to drive it forward. All things that sound familiar to us here at Infinity.

Which is probably why we've been trading together for so long.

Good stuff for Good people....

Food is Medicine: East Brighton Food Co-op

Tackling Food Poverty Locally

The East Brighton Food Co-op have been working to help tackle food poverty in our area, here is a little bit about their great work.

The East Brighton Food Co-op

A few weeks ago, we popped along to visit our friends at East Brighton Food Co-op.

Founded in 2019 by ex fruit and veg market trader Bryan Coyle, EBFC really got to work during the Covid lockdown in 2020, delivering hot food to those without a support network.

Delivering a brighter future

In 2026, they now offer an NHS referred meals on wheels service across Brighton and Hove.

Working together with hospital discharge teams, they identify and support the vulnerable, freeing up hospital beds and allowing patients to return home early.

“The EBFC motto, “Food is Medicine” feels very aligned with our values at Infinity”

The invisible problem draining the NHS

Recent studies suggest that malnutrition could be costing the NHS £22 BILLION A YEAR and Bryan is keen for the EBFC model to be rolled out across the UK.

Helping people

“We’re helping patients get back to their communities and anyone doing similar work in the UK should get in touch. Let’s get community Meals on Wheels services back on the menu!”

The EBFC motto, “Food is Medicine” feels very aligned with our values at Infinity

We love being able to support EBFC them and the invaluable work they are doing here in Sussex. Working miracles.

“Our Local Heroes get National Recognition”

Top Awards

In 2024 EBFC became a Top 5 Social Enterprise in the UK. Finalists in the 2024 NatWest SE100 for our pioneering work across Brighton & Hove.

Good stuff for good people....

Commodity : update

Welcome to the bi-monthly update from our commodity buyers. Here we share news on harvests, supply, and pricing across grains, pulses, fruit, nuts, and seeds to keep you connected to the changing wholefoods market.

Crop conditions, supply trends, and shifts across wholefoods.

Inevitably costs are rising across the supply chain

Global trade is still erratic, mainly due to the ongoing issues in the Middle East. Rising oil prices, Mr Trump's tariffs and a strong US dollar are all contributing to rising prices in the UK.

As it was last year, the unpredictable weather is hitting harvests hard, so we're having to look farther afield for some products.

Here's a bit of a breakdown of what we're expecting to happen this year...

Seeds:

Pumpkin seed — Supply is expected to be tight this season, Chinese farmers have been directed to grow other crops, but prices are steady.

Linseed — Both the brown and golden varieties have gone up around 10%, there's still stock available through to the new crop.

Chia seed — Still very popular and showing up in more and more products.

We're sticking with our Paraguayan suppliers who have a solid track record on testing and compliance.

Sunflower seed — Non Organic prices are stable, but organic is creeping up.

Quinoa — Smaller harvests on the black and red varieties have pushed prices up. British organic quinoa is back after a year's absence! Lovely to have this back.

Here's a bit of a breakdown of what we're expecting to happen this year...

Nuts:

Cashews — Harvest is underway in Vietnam and early signs are looking good. We're expecting to see the new crop in May.

Brazil Nuts — Availability is better this year and prices are coming down. Good news after a tricky period for this old favourite.

Coconut — Prices are coming down from the recent highs across all three of our coconut products.

Fruit:

Apricots — The Turkish crop was pretty much zero. Uzbekistan has stepped up as an alternative source. 2025 stock is already arriving in the UK.

Sour Cherries & Chopped Figs — We're struggling to source these at the moment — supply is tight across the board. We'll have to wait and see on these.

Organic Cranberries — They're back! After almost a year out of stock, we've secured enough to keep things flowing through the season!

A couple of new things to look out for: organic mango pieces (100571) — smaller cuts, great for mixes and snacking, and cheaper than the strips. We're also trialling organic **French d'Agen pitted prunes** alongside our Californian ones — watch this space as they might be a bit sticky for our packing machines.

Cacao products - Prices went through the roof last year putting lot of pressure on the entire supply chain. This led to rushed harvests and poor production practices in some cases, resulting in an inconsistent product at a higher price point.

Good news though. We're seeing more stable prices so far in 2026 so, hopefully things can settle down a bit.

Delisted products - we've decided to drop the 25kg bags of organic almonds and hazelnuts. The 10kg vacuum-packed boxes do a much better job of keeping them fresh.

Good stuff for good people....

The Magnesium Experts

7/10 women and 4/10 men in the UK do not get enough Magnesium through their diet

Supplementing Magnesium is essential as it supports over 300 processes in the body. However the modern diet is less nutrient dense due to industrialised farming and food processing methods. The rise in gut health problems has affected how efficiently our bodies can absorb and utilise nutrients both from our diets and from traditional supplements like tablets and capsules.

The Magnesium category is growing

As the benefits of Magnesium are becoming more widely known, consumers are searching for products to support their everyday health. BetterYou Magnesium offers a faster, more effective way to elevate magnesium levels.

Magnesium restores every cell in the body to:

- Fight fatigue
- Support bone health
- Calm the mind

T&Cs apply: 20% off the BetterYou Magnesium Range only. Offer valid from 1st May - 30th June 2026. Offer can be removed at any time.

Transdermal application for higher bioavailability

BetterYou Magnesium is formulated with pure source magnesium chloride, for the highest bioavailability. When the spray or lotion is massaged onto the body or the flakes are added to a warm bath, the Magnesium absorbs through the skin directly into the bloodstream restoring cellular Magnesium levels.

<p><i>New from Frutteto, bring a little Mediterranean sunshine to your breakfast table with organic vegan Polana Raspberry 100% Fruit Spread. Made with organic Polana raspberries which are prized for their vibrant aroma and tangy sweetness, this spread is a Great Taste Award-winner for its "great colour, wonderful aroma, this tastes pure and summery". Each jar is crafted from at least 110 raspberries, gently simmered with a drop of grape and lemon juice. Handmade in small batches at low temperature in Tuscany, it preserves the fruit's natural goodness, colour and aromatic freshness without the need for refined sugar or artificial sweeteners. By using whole fruit rather than pre-processed purée, the fibre and nutrients remain naturally present, making Frutteto a natural source of fibre.</i></p>

* RIFCo - fermented foods														
<p>New from RIFCo, a selection of organic vegan gluten-free fermented foods in glass jars. There are two Korean inspired live Kimchi made by fermenting organic vegetables, spices and Celtic sea salt together. They are naturally cultured, high in vitamins, enzymes and beneficial live bacteria. There is a Classic Kimchi and Turmeric Kimchi which is one of the best ways to consume curcumin as the fermentation makes it easier for the body to absorb as does the spicy black pepper. There is also a range of tasty Eastern European sauerkraut high in vitamins C and K with potassium, calcium and phosphorus. Classic Sauerkraut is made with cabbage and salt. Beety Kraut has an earthy flavour and a beautiful colour. Spicy Kraut contains red chillies and oregano for a spicy twist. As with all the sauerkrauts, try not to cook it, just add it!</p>

* Seggiano														
<p>New and on offer from Seggiano, three lovely vegan sauces: Mixed Vegetable Antipasti - this delicious antipasti is made in Tuscany using the traditional method for preserving fresh vegetables in extra virgin oil. Enjoy with bruschetta. Oven Roasted Tomatoes in EVOO - these small sweet Sicilian tomatoes are organically grown and ripened under the Mediterranean sun. They are oven roasted to intensify their flavour, before preserving in the producer's own stone milled organic olive oil. Exceptionally delicious with salads or pasta. Roasted Artichoke Hearts in EVOO - this recipe is made in southern Tuscany in the traditional way. Most food processors use artichokes which have been stored in brine, but these artichokes are preserved in extra virgin oil fresh at harvest time, so they have real flavour and texture. <p><i>Seggiano are re-branding their best-selling pesto range with a new jar size of 190g and a standard case size of 6 jars. The barcodes have also been updated. These will feed through over the period of this catalogue. New to the range are three vegan gluten-free sauces. Artichoke & Garlic Sauce - this creamy blend hails from the hills of Piemonte, where a small producer crafts it in the traditional way using only fresh artichokes, olive oil, garlic, and a dash of sea salt. It can be used as a spread for bruschetta or a sauce for pasta. Pistachio Pesto is made with over 50% pistachios, blended with extra virgin olive oil, hot pepper, and salt for a smooth, creamy texture and a sweet, buttery flavour. Its delicate heat and rich texture make it a standout for both simple and elevated meals. Tomato & Almond Pesto is a vibrant pesto from Trapani in Sicily where almonds, ripe tomatoes and herbs take centre stage. Delicious stirred through pasta or spooned over grilled vegetables. The pricing below represents a discount of 10%</i></p>

<p><i>New from Yogi Tea, is organic vegan Happy Farming Tea. As the need for resilient, sustainable farming grows, farmers are leading the way to a happier farming future. Yogi Tea are proud to feature and support the South African farmers Richard and Karen Bowscher of Klipomkeaar rooibos farm with their Happy Farming Tea. The tea is a gentle ayurvedic blend of rooibos, vanilla and lemon grass combining carefully selected botanicals for a smooth, comforting flavour with a lightly sweet, spiced note. Perfect for any time of day, each cup invites you to slow down, relax, and enjoy a moment of simple, natural well being. Yogi Teas are gradually re-branding to a new look, the recipes remain the same but the barcodes are different so I have listed them with new Infinity order codes.</i></p>

What's changed since last time?

On the left-hand side of each page, you'll see a shaded column where you can check what's changed since the last catalogue. We do everything we can to stick to the prices you see on the page, but sometimes events outside our control might mean they have to change. If this happens, we'll be sure to flag it clearly on your invoice.

Want to talk organic?

We label lots of our products as 'organic'. This means an official body, recognised by the EU, has certified the product. If you'd like more information about how this works, drop Charlie our Soil Association co-ordinator a message at: charles.booth@infinity.coop
